

B126

Vitamin B₁, B₆ & B₁₂

Presentation

B126 tablet: Each film coated tablet contains Thiamine Nitrate BP 100 mg, Pyridoxine Hydrochloride BP 200 mg & Cyanocobalamin BP 200 mcg.

Description

It is a special preparation of vitamins B₁, B₆ and B₁₂. The vitamins B₁, B₆ and B₁₂ are indispensable for a normal course of the nervous metabolism.

Indications

Vitamins B₁, B₆ and B₁₂ tablet are indicated where deficiencies of the relevant vitamins exist. It is also indicated in the treatment of Diabetic neuropathy, Peripheral neuralgia, Lumbago, Myalgia, Sciatica, Facial neuralgia, Intercostal neuralgia, Spinal pain.

Dosage and Administration

Tablets may be administered in a dosage of 1 to 3 tablets per day or as directed by the physician.

Side Effects

Generally well tolerated. However, a few allergic reactions may be seen.

Precautions

Cyanocobalamin should not be given before a diagnosis has been fully established because of the possibility of masking symptoms of subacute degeneration of the spinal cord. Cyanocobalamin is not a suitable form of

Vitamin B₁₂ for the treatment of optic neuropathies associated with raised plasma concentrations of cyanocobalamin.

Contraindications

Should not be used in the patients on Levodopa therapy and hypersensitivity to any of the active ingredients.

Drug Interactions

No such drug interactions have been reported.

Use in Pregnancy & Lactation

Oral tablet form is recommended but injectable preparation is not recommended due to presence of benzyl alcohol.

Overdosage

If there is known overdose then treatment is symptomatic and supportive.

Pharmaceutical Precautions

Store at 15°C to 30°C in a dry place, protected from light. Keep out of the reach of children.

Commercial Packs

B126 tablet: Each box contains 6X10 tablets in blister pack.
